

AI Image Generation: Documentation

Introduction

BrandSync AI's cutting-edge image generation technology transforms your ideas into stunning visuals with just a few clicks. Our AI-powered system understands natural language descriptions and converts them into professional-quality images tailored to your needs.

Key Features

1. AI-Powered Image Creation

- **Text-to-Image Transformation:** Turn descriptive text into compelling visuals
- **Intelligent Design Elements:** Automatic composition, lighting, and perspective
- **Context-Aware Generation:** AI understands themes, moods, and brand requirements

2. Customization Options

- **Style Selection:** Choose from various artistic styles (photorealistic, cartoon, abstract, etc.)
- **Detail Control:** Specify important elements and focal points
- **Brand Consistency:** Maintain your visual identity across all generated images

4. Customize Texts on Image:

- **Heading:** A short, bold title for the image.
- **Subheading:** A smaller title to support the main heading.
- **Paragraph:** A longer text block for additional details.

5. Technical Specifications

- **Customize Image Size Output:** Generate images in various size image
- **Format Support:** Download in JPG format.
- **Quick Processing:** Receive your images in seconds

How to Use BrandSync AI

1. Navigate to the Image Generator

Access the **Generate Image** page from your BrandSync AI dashboard.

2. Craft Your Image Prompt

- Be descriptive and specific about what you want to see
- Include details about style, mood, colors, and composition
- Use clear language that the AI can interpret accurately

3. Choose Suitable Negative Prompt

- Be specific about the negative prompt.
- Suitable negative Prompt Improves consistency in results

4. Provide Generation Steps:

- Enter the image generation step (number of steps to denoise the image and generate image)

5. Set Text Influence:

- Controls how strongly the model follows input prompt.

6. Set the Image Size:

- Set the image size.

7. Select the Text Characteristics on Image:

- Heading: A short, bold title for the image.
- Subheading: A smaller title to support the main heading.
- Paragraph: A longer text block for additional details.

8. Generate and Refine

- Click the **Generate Image** button to create your visual
- Review the result and make adjustments to your prompt if needed
- Regenerate with tweaked parameters for different variations

9. Download and Use

- Save your image in your preferred format
- Use the download button to export to your device
- Apply your generated image directly to your projects

Pro Tips

- **Be Specific:** The more details you provide, the better the results
- **Negative Prompt:** The more specified negative prompt chosen presence of unwanted things will be minimized.
- **Use References:** Mention existing styles or images for inspiration
- **Iterate Quickly:** Generate multiple versions to find the perfect match
- **Combine Approaches:** Mix different styles for unique results

Image Usage Rights

All images generated through BrandSync AI are available for your commercial and personal use, with no attribution required. Your creative content remains private and secure within our platform.
